

Your Neighborhood Wilderness Program Registration

Your Neighborhood Wilderness program includes a 1.5 hour classroom presentation and a 1.5 hour guided field study investigation.

Classroom Presentation & Field Study Investigation

This program introduces students to their local backyard ecosystems. The 1 hour classroom presentation incorporates a power point presentation and scavenger hunt. The 1.5 hour field study will be performed at your school or at Seahurst Park's 169 acres of woodland trails.

Teachers will choose from three possible focus areas:

1: **"Who's Bugging You?"**- Terrestrial Invertebrate Identification (Grades K-2)

2: **"What's Under Your Feet?"**- Soil and Plants (Grades 2-5)

3: **"What's Above Your Head?"**- Birds and Biodiversity (Grades 6-12)

All three focus areas can be offered as a classroom only session and can include exploration of the schoolyard for the field study component.

Grades: K-12

Program Details
