

Salmon and You Program Registration

Hello,

The Environmental Science Center offers a complete **Salmon and You program**, which includes a 1 hour classroom presentation and a 3 hour guided field study investigation.

Classroom Presentation & Field Study Investigation (offered in the fall)

This program explores the lifecycle of salmon, provides hands-on experience with internal/external fish anatomy, identifies salmon habitat needs and limiting factors, and analyzes water quality. The 1 hour classroom presentation and 3 hour field study help students determine their local stream or rivers suitability for salmon as they investigate the health of the Walker/Miller Creek Watershed or Duwamish/Green River Watershed. Students also discover their impact on salmon habitat. The field study includes a large motor skills game. This program can be offered as a classroom only session.

Recommended Grades: 4-8

We deliver this field trip at **Normandy Park Cove**, the convergence site of the Walker/Miller Creek watershed or **Cecil Moses State Park** along the Green/Duwamish River.

Cost: \$50 for the 1 hour pre-trip class and \$200 for the 3 hour beach trip per each group of 30 kids for a total of \$250 per class. If your school has 50 % or greater reduced or free lunch rate your course fee may be waived ([please request waiver](#)).

Materials Cost: If ESC delivers more than one program to a class that qualifies for Free ESC courses in the school semester; then a \$25 materials fee will be charged per class.

Busing: [You need to arrange and pay for transportation for this field trip](#)

Chaperones: During the field study, we would like students put into groups of 10-12 with two chaperones for each group.

**If you decide you would like to book a date with ESC, fill out the following registration form and email to programs@envsciencecenter.org
Or mail to the address at the bottom of the page.**

Salmon and You Program Registration

School Name:
School Address:

Teachers Names:
Contact Email:
School Phone #:

Your Home Phone #:

Group registration is encouraged! Speak to your fellow teachers and sign up together!!

Grade: _____
Total # of kids: _____ (60 student maximum without prior approval)

Classroom Presentation (one or two weeks prior to your field trip):

Date: _____ Time (1 hr): _____

Field Study Location:

Date: _____ Time (3 hrs): 9:00 AM – 12:00 PM

Free or Reduced Lunch Rate for your school: _____ %

Costs: With a rate > 50%, the Environmental Science Center will waive the cost of the course. Without a waiver, total program cost is \$250 for this program.

Materials Cost: If ESC delivers more than one program to a class that qualifies for Free ESC courses in the school semester; then a \$25 materials fee will be charged per class.

Billing: An invoice will be sent upon scheduling the course.

Thank you!

"Our programs conform to the 2009 Scientific Field Investigations specified in the OPSI."
